Frank, the Chef and Manager at Sister Jean’s, sends his thanks for the donations of plates, forks and plastic tumblers (*all dishwasher safe*) that we delivered this summer. Every weekday from noon until two, the staff and volunteers are feeding approximately 500 needy women, men and children (an increase of approximately 17% since June).

If you have dinner plates, forks and plastic tumblers (all dishwasher safe) to donate, please leave them in the designated boxes in Madden Hall, and the volunteers will make certain they are delivered to Frank and his staff.

Again thanks so very much for all your gifts, which are very much appreciated and needed.

I'm riding in this year's MS150 City to Shore, and would love your support in my fundraising efforts!

Multiple sclerosis (MS) is an unpredictable, often disabling disease of the central nervous system that disrupts the flow of information within the brain, and between the brain and body. Symptoms range from blurred vision, loss of balance, poor coordination, slurred speech, tremors, numbness, extreme fatigue, problems with memory and concentration, paralysis, blindness and more. MS is different for everyone, and that makes it all the more challenging to solve.

Believe it or not, pedaling a bike could be the answer to a world free of MS. Mile by mile, dollar by dollar, Bike MS provides much needed funding not only to research, but to ensuring people affected by MS can live their best lives. I just signed up for this year's ride and I'd really appreciate your support in my fundraising efforts.

Your tax-deductible contribution will help the National MS Society fund groundbreaking research and life-changing programs for people living with MS. And ultimately, end MS forever.

Thank you so much!

Robert Mellon

Volunteers visit patients who live in the vicinity of the volunteer's home or place of work.
